DOLLAR DOT DISPATCH

Arizona Federal

Danny

Dolly

Dennis

Darlene

Start saving for summer break!

School is still in session, but it's not too soon to start thinking about saving for summer break!

Is your family going on vacation? You may want to start saving some money now so you can buy a souvenir to help you remember your trip!

Even if your family isn't going on vacation, you might want to have some extra money for a new toy or treats when you are at the pool.

How can you save money? The Dollar Dots would like to share with you how they save money!

When Danny remembers to make his bed every morning and water the plants every weekend, his mom gives him an allowance on Sundays. He wants to save for a new skateboarding helmet.

It's getting hot outside! Dolly opens a lemonade stand on Saturdays so she can save money for a new raft to take to the pool.

Dennis just had a birthday. He received some money from his grandma. He decides to take this money to Arizona Federal to deposit in his savings account so he will have money for the summer.

Darlene gets paid to walk her neighbor's dog after school. She saves her money in a piggy bank. Her family is going to Disneyland™ this summer and she wants to buy a Minnie Mouse doll.

The Dollar Dots know how to save now so that they have money later when they need it. They hope you are saving, too! If you start saving at Arizona Federal now, you can earn dividends on the money you deposit, earning you more money in the future.

DID YOU KNOW?

Each year the U.S. Mint produces five new commemorative quarters, each featuring one of the fifty states.

In 2005, the Mint will introduce quarters for California, Oregon, Minnesota, Kansas and West Virginia. Do you know where these states are located on the map? Ask your mom or dad to show to you!

Are you collecting the commemorative quarters? If so, you should have 30 of the 50 quarters. If you haven't started collecting, maybe now's the time!
